

Ford MAXiCab

THE NEXT GENERATION OF BLACK CAB

Experience the Future of Taxis with the All-New Ford **MAXiCab**

Cab Direct proudly presents the revolutionary **MAXiCab**, a game-changer for the UK taxi market. Developed in collaboration with Ford, this state-of-the-art taxi combines advanced technology, driver-centric features and a strong focus on sustainability. Built on the trusted Ford Tourneo Custom foundation, **MAXiCab** sets new standards for accessibility, efficiency and eco-friendly black taxis.

Why choose **MAXiCab?**

- **Competitively priced**

Reducing the lifetime cost of taxi ownership.

- **Reliability**

Built to reduce time off road.

- **Efficiency**

Reduced running costs with advanced powertrain options.

- **Accessibility**

Superior space and comfort for all passengers.

- **Future proof**

Engineered to meet LEZ and ULEZ requirements.

- **Convenience**

Packed with features to enhance every journey for both the driver and passengers.

MAXimise Efficiency

Choose from three advanced powertrains to suit your needs.

2.5L PETROL PLUG-IN HYBRID

11.8 kWh battery.

32.2 miles* of zero-emissions driving.

Ideal for urban areas and an MPG of up to 149*†.

FULLY ELECTRIC

71.4 kWh battery.

Fast charging capable.

100% zero emissions with a range of up to 189 miles*.

2.0L EURO 6.2 DIESEL ENGINE

Ford EcoBlue engine is designed to be fuel efficient and low on emissions.

Equipped with 8 speed automatic gearbox.

*WLTP. Tested under laboratory conditions.

†GB mainland only. Tested in accordance with Euro 6E standard.

**JOIN THE GREEN REVOLUTION AND ENJOY THE
ADDITIONAL BENEFITS OF**

Fast charging

Recharge from 10% to 80% in just 29 minutes using rapid charging.

ULEZ and LEZ compliant taxis

Fully electric and plug-in hybrid options provide zero-emissions driving for eco-friendly towns and cities.

Fuel savings

Fully electric and plug-in hybrid regenerative braking technology reduces fuel consumption and emissions.

MAXimise Convenience

Designed to meet the needs of both drivers and passengers, **MAXiCab** offers exceptional versatility and comfort.

- **Enhanced communication**

Crystal clear intercom for both driver and passenger.

- **Driver-friendly features**

A spacious, comfortable cab that includes Titanium comfort seating, sat nav, 13-inch touch screen and intuitive controls for seamless operation.

- **Flexible seating options**

Accommodates six passengers, with luggage area next to the driver.

- **Passenger comfort**

A bright and spacious interior with a panoramic roof, generous legroom and easy-to-clean vegan leather seats.

- **Secure door locking**

Motion-locking doors and independent left/right locking, via indicator stalk to ensure safe disembarking onto pavements.

MAXimise Accessibility

MAXiCab redefines accessibility for wheelchair users, ensuring every passenger enjoys a comfortable and inclusive journey.

- **Unmatched wheelchair access**

Offering a generous 2.18m² manoeuvring area, over 20% more than competitors.

- **Low-gradient ramp**

Designed to meet DfT and BSI standards for effortless entry*, tested for wheelchairs weighing up to 150kg.

- **Passenger safety first**

Equipped with seatbelts for all passengers, as well as secure restraints for wheelchair users.

- **Panoramic glass roof**

Provides additional headroom and natural light, creating a welcoming and airy environment.

- **Full GB type approval**

The VCA has given the MAXiCab full GB Type Approval as a wheelchair accessible vehicle – g11*2018/858*00851.

MAXimise Reliability

The Ford **MAXiCab** is crafted to deliver exceptional durability and dependability so that you have a cab you can count on, day in and day out.

- **Quality you can trust**

Built with precision and care, **MAXiCab** enhances the base vehicle without compromising its structural integrity. Its design focuses on long-term reliability and ease of maintenance, ensuring a taxi that's built to last.

- **Repair-friendly design**

Downtime can be costly. That's why **MAXiCab** is engineered for fast and efficient repairs. Centrally located wiring and control systems make maintenance straightforward and minimises time off the road.

- **Seamless integration**

Taxi-specific features, including door controls, air conditioning and lighting, are expertly integrated with the vehicle's existing systems. These enhancements are intuitive, reliable and designed to elevate your driving experience.

* The diesel MAXiCab comes with a manufacturer's warranty and adaptation warranty of 3 years/100,000 miles.

MAXiCab

Testimonials

- **Dougie M, Chairman of Glasgow Taxis (BEV)**

"I have owned several different models of cab and the MAXiCab is, without doubt, the most comfortable to drive. It offers both the passenger and the driver a modern, comfortable travel experience."

- **Stewart R, West Lothian (PHEV)**

"Very nice taxi, really nice to drive. Massive difference in the fuel consumption, I'm saving around £150 PW on fuel. Plus, the passenger feedback is great on the taxi, especially on the panoramic roof."

- **David B, Glasgow (PHEV)**

"Really happy with the taxi, the running costs are really good, great fuel consumption. Passengers love the space and the panoramic roof. Really nice taxi inside and out."

- **Lynda R, Glasgow (BEV)**

"I have had the fully electric MAXiCab since April last year, and I absolutely love it. I was a bit dubious about electric taxis at the start, but after running around in it, I cannot say enough good things about it. The fuel savings are going to be absolutely phenomenal. We're saving about £100 a week. Customers love it, and I love it."

- **Mark F, Liverpool (PHEV)**

"The MAXiCab is great! It drives great and feels so comfortable, and the fuel economy has been brilliant. My passengers always comment on the space and how comfortable the rear seats are, and the panoramic roof gets mentioned all the time. Overall, great taxi."

- **Muhammad I, Manchester (PHEV)**

"Everything about this car is perfect! I'm even considering upgrading to a fully electric MAXiCab in the future. My favourite thing is how spacious and comfortable it is; I can drive for much longer without feeling tired."

- **Mohammad R, Glasgow (PHEV)**

"Everything about this car is great, especially compared to my old Vito. I've had it for nine months now, and I still think it's amazing with loads of great features. It's much more comfortable than my previous taxi, and the fuel consumption is much better. Plus, customers love the panoramic roof."

- **Anon, Liverpool (PHEV)**

"I previously had the old Procab, and the MAXiCab is much better. I much prefer having the wheelchair passenger sitting forward, it feels safer and the wheelchair restraints are easy to use too. It drives just like a car, which is a huge plus. The extra space and legroom are great and make a big difference for everyone."

BE PART OF THE FUTURE

The Ford **MAXi**Cab isn't just a taxi — it's a step towards a cleaner, greener and more inclusive future. Designed to align with the UK's zero-carbon goals, **MAXi**Cab sets the standard for sustainable urban transport.
